[03] COST (TODAY)
$213.53                      Max plan · $9,273 saved by cache
opus-4-7
input 43.3K × $5.00/M                                   $0.22
output 797.2K × $25.00/M                               $19.93
cache read 362.0M × $0.50/M                           $180.99
cache write 2.0M × $6.25/M                             $12.39

[04] TOP PROJECTS
01 ~/home-user-project-alpha                           361.8K
02 ~/home-user-project-beta                            169.8K
03 ~/home-user-project-gamma                            95.3K

[05] TIPS
▸ Opus handles 100% of your output. Shifting easy tasks to Sonnet
  could save ~$234/week.
▸ Cache already saves $9,274/week — 5.5× your bill. Keep it up.

[06] YOUR WEEK
Productive week — 626K output tokens across three projects, all on
Opus 4.7. Cache is pulling ~5× its own weight; expensive turns
stayed under $0.30 each. Consider shifting light edits to Sonnet
next week for easy savings.
